BUSINESS ANALYST — PROFESSIONAL SUMMARY

Technically adept professional with experience in requirements analysis, data-driven decision making, and translating business needs into technical solutions.

EXPERIENCE

Microsoft Learn Student Ambassador (MLSA) – Trainee

Nov 2024 – Present

- Completed hands-on training in full-stack development and Microsoft Azure fundamentals.
- Collaborated on technical projects and peer learning initiatives.
- Built and deployed applications using modern web technologies and cloud platforms.

AWS Certified Cloud Practitioner (CLF-C02)

2026

- Demonstrated knowledge of cloud computing fundamentals, AWS global infrastructure, and core services (EC2, S3, RDS, Lambda).
- Gained understanding of IAM, shared responsibility model, security best practices, and compliance principles.
- Applied cloud concepts to design scalable and cost-efficient architectures.
- Familiar with AWS pricing models, billing, and monitoring services like CloudWatch.

PROJECTS

Data Analytics Dashboard — Python, Pandas, SQL, PostgreSQL, Prisma

2026

- Built an analytics pipeline ingesting structured data into PostgreSQL via Prisma ORM.
- Performed data cleaning, transformation, and aggregation using Pandas.
- Designed SQL queries for KPI reporting and visualized insights on a React dashboard.

AthLead – AI Sports Analytics & Talent Ranking Platform — React.js, Node.js, Express, MongoDB, Python, JWT

2025

- Built a full-stack platform enabling athletes and coaches to securely input performance data and receive AI-driven scoring insights.
- Designed RESTful APIs and integrated a Python-based ML model for player performance evaluation.
- Developed interactive dashboards to visualize performance metrics, rankings, and event data.
- Selected for Smart India Hackathon 2025 (Ministry of Youth Affairs & Sports, Govt. of India).

Wanderlust – Airbnb-like Rental SaaS Platform — MERN, MVC, MongoDB Atlas

2026

- Built an Airbnb-style rental SaaS platform using MERN architecture.
- Implemented MVC structure, schema validation, and secure session-based authentication.
- Integrated image uploads and deployed on MongoDB Atlas.

TECHNICAL SKILLS

SQL, PostgreSQL, MySQL, Python, Pandas, Data Analysis, REST APIs, Agile/Scrum (concepts), Documentation, MongoDB, Prisma, GitHub, Jira (concepts)

EDUCATION

Bachelor of Technology in Computer Science

KIET Group of Institutions, AKTU · 2023 – 2027 · CGPA: 7.1/10

Intermediate (Class XII)

EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple hackathons and won accolades.
- Member of Newton School of Coding Club (NSCC); involved in programming and technical events.
- Experience in hosting events, leading teams, and coordinating activities.
