DATA ANALYST — PROFESSIONAL SUMMARY

Data-oriented developer with experience in SQL, Python data pipelines, analytics dashboards, and backend systems that process and visualize structured data.

EXPERIENCE

AWS Certified Cloud Practitioner (CLF-C02)

2026

- Demonstrated knowledge of cloud computing fundamentals, AWS global infrastructure, and core services (EC2, S3, RDS, Lambda).
- Gained understanding of IAM, shared responsibility model, security best practices, and compliance principles.
- Applied cloud concepts to design scalable and cost-efficient architectures.
- Familiar with AWS pricing models, billing, and monitoring services like CloudWatch.

Microsoft Learn Student Ambassador (MLSA) – Trainee

Nov 2024 – Present

- Completed hands-on training in full-stack development and Microsoft Azure fundamentals.
- Collaborated on technical projects and peer learning initiatives.
- Built and deployed applications using modern web technologies and cloud platforms.

PROJECTS

Data Analytics Dashboard — Python, Pandas, SQL, PostgreSQL, Prisma

2026

- Built an analytics pipeline ingesting structured data into PostgreSQL via Prisma ORM.
- Performed data cleaning, transformation, and aggregation using Pandas.
- Designed SQL queries for KPI reporting and visualized insights on a React dashboard.

AthLead – AI Sports Analytics & Talent Ranking Platform — React.js, Node.js, Express, MongoDB, Python, JWT

2025

- Built a full-stack platform enabling athletes and coaches to securely input performance data and receive AI-driven scoring insights.
- Designed RESTful APIs and integrated a Python-based ML model for player performance evaluation.
- Developed interactive dashboards to visualize performance metrics, rankings, and event data.
- Selected for Smart India Hackathon 2025 (Ministry of Youth Affairs & Sports, Govt. of India).

LinkedIn Job Automation Bot — Node.js, Playwright, Nodemailer, Express

2026

- Built a Playwright-based bot that searches LinkedIn for job postings filtered by keyword and last 24 hours.
- Automated email submissions with role-conditional resume attachments using Nodemailer.
- Implemented deduplication via JSON-based applied-email tracking and Express REST API trigger.

TECHNICAL SKILLS

Python, Pandas, SQL, PostgreSQL, MySQL, Prisma ORM, MongoDB, REST APIs, Node.js, React.js, Data Visualization, AWS (S3, RDS), Git, Linux

EDUCATION

Bachelor of Technology in Computer Science

KIET Group of Institutions, AKTU · 2023 – 2027 · CGPA: 7.1/10

Intermediate (Class XII)

EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple hackathons and won accolades.
- Member of Newton School of Coding Club (NSCC); involved in programming and technical events.
- Experience in hosting events, leading teams, and coordinating activities.
