JAVA DEVELOPER — PROFESSIONAL SUMMARY

Backend developer with strong Java and full-stack skills, experienced in REST APIs, cloud services, and scalable application development.

EXPERIENCE

AWS Certified Cloud Practitioner (CLF-C02)

2026

- Demonstrated knowledge of cloud computing fundamentals, AWS global infrastructure, and core services (EC2, S3, RDS, Lambda).
- Gained understanding of IAM, shared responsibility model, security best practices, and compliance principles.
- Applied cloud concepts to design scalable and cost-efficient architectures.
- Familiar with AWS pricing models, billing, and monitoring services like CloudWatch.

Microsoft Learn Student Ambassador (MLSA) – Trainee

Nov 2024 – Present

- Completed hands-on training in full-stack development and Microsoft Azure fundamentals.
- Collaborated on technical projects and peer learning initiatives.
- Built and deployed applications using modern web technologies and cloud platforms.

PROJECTS

AthLead – AI Sports Analytics & Talent Ranking Platform — React.js, Node.js, Express, MongoDB, Python, JWT

2025

- Built a full-stack platform enabling athletes and coaches to securely input performance data and receive AI-driven scoring insights.
- Designed RESTful APIs and integrated a Python-based ML model for player performance evaluation.
- Developed interactive dashboards to visualize performance metrics, rankings, and event data.
- Selected for Smart India Hackathon 2025 (Ministry of Youth Affairs & Sports, Govt. of India).

Zingle – Social Media Platform — React (Vite), Node.js, Express, MongoDB, Redux, Tailwind CSS

2026

- Built a full-stack social media app with posts, stories, messaging, and user connections.
- Developed RESTful APIs and authentication (Clerk) for secure user and data management.
- Integrated media handling (Cloudinary/ImageKit) and designed responsive UI with Redux state management.

LinkedIn Job Automation Bot — Node.js, Playwright, Nodemailer, Express

2026

- Built a Playwright-based bot that searches LinkedIn for job postings filtered by keyword and last 24 hours.
- Automated email submissions with role-conditional resume attachments using Nodemailer.
- Implemented deduplication via JSON-based applied-email tracking and Express REST API trigger.

TECHNICAL SKILLS

Java, Spring Boot (concepts), Node.js, Express, REST APIs, SQL, MySQL, PostgreSQL, MongoDB, Docker, AWS (EC2, S3, Lambda), Git, Linux

EDUCATION

Bachelor of Technology in Computer Science

KIET Group of Institutions, AKTU · 2023 – 2027 · CGPA: 7.1/10

Intermediate (Class XII)

EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple hackathons and won accolades.
- Member of Newton School of Coding Club (NSCC); involved in programming and technical events.
- Experience in hosting events, leading teams, and coordinating activities.
