NODE.JS DEVELOPER — PROFESSIONAL SUMMARY

Backend-focused Node.js developer with expertise in REST API design, authentication, real-time systems, and cloud deployment.

EXPERIENCE

Microsoft Learn Student Ambassador (MLSA) – Trainee

Nov 2024 – Present

- Completed hands-on training in full-stack development and Microsoft Azure fundamentals.
- Collaborated on technical projects and peer learning initiatives.
- Built and deployed applications using modern web technologies and cloud platforms.

AWS Certified Cloud Practitioner (CLF-C02)

2026

- Demonstrated knowledge of cloud computing fundamentals, AWS global infrastructure, and core services (EC2, S3, RDS, Lambda).
- Gained understanding of IAM, shared responsibility model, security best practices, and compliance principles.
- Applied cloud concepts to design scalable and cost-efficient architectures.
- Familiar with AWS pricing models, billing, and monitoring services like CloudWatch.

PROJECTS

LinkedIn Job Automation Bot — Node.js, Playwright, Nodemailer, Express

2026

- Built a Playwright-based bot that searches LinkedIn for job postings filtered by keyword and last 24 hours.
- Automated email submissions with role-conditional resume attachments using Nodemailer.
- Implemented deduplication via JSON-based applied-email tracking and Express REST API trigger.

Zingle – Social Media Platform — React (Vite), Node.js, Express, MongoDB, Redux, Tailwind CSS

2026

- Built a full-stack social media app with posts, stories, messaging, and user connections.
- Developed RESTful APIs and authentication (Clerk) for secure user and data management.
- Integrated media handling (Cloudinary/ImageKit) and designed responsive UI with Redux state management.

AthLead – AI Sports Analytics & Talent Ranking Platform — React.js, Node.js, Express, MongoDB, Python, JWT

2025

- Built a full-stack platform enabling athletes and coaches to securely input performance data and receive AI-driven scoring insights.
- Designed RESTful APIs and integrated a Python-based ML model for player performance evaluation.
- Developed interactive dashboards to visualize performance metrics, rankings, and event data.
- Selected for Smart India Hackathon 2025 (Ministry of Youth Affairs & Sports, Govt. of India).

TECHNICAL SKILLS

Node.js, Express, REST APIs, MongoDB, Prisma, PostgreSQL, TypeScript, JWT, Clerk, Playwright, Nodemailer, Docker, AWS, Linux, Git

EDUCATION

Bachelor of Technology in Computer Science

KIET Group of Institutions, AKTU · 2023 – 2027 · CGPA: 7.1/10

Intermediate (Class XII)

EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple hackathons and won accolades.
- Member of Newton School of Coding Club (NSCC); involved in programming and technical events.
- Experience in hosting events, leading teams, and coordinating activities.
