PROJECT MANAGER — PROFESSIONAL SUMMARY

Technically skilled project contributor with hands-on experience leading hackathon teams, coordinating cross-functional deliverables, and shipping full-stack products under deadlines.

EXPERIENCE

Microsoft Learn Student Ambassador (MLSA) – Trainee

Nov 2024 – Present

- Completed hands-on training in full-stack development and Microsoft Azure fundamentals.
- Collaborated on technical projects and peer learning initiatives.
- Built and deployed applications using modern web technologies and cloud platforms.

AWS Certified Cloud Practitioner (CLF-C02)

2026

- Demonstrated knowledge of cloud computing fundamentals, AWS global infrastructure, and core services (EC2, S3, RDS, Lambda).
- Gained understanding of IAM, shared responsibility model, security best practices, and compliance principles.
- Applied cloud concepts to design scalable and cost-efficient architectures.
- Familiar with AWS pricing models, billing, and monitoring services like CloudWatch.

PROJECTS

AthLead – AI Sports Analytics & Talent Ranking Platform — React.js, Node.js, Express, MongoDB, Python, JWT

2025

- Built a full-stack platform enabling athletes and coaches to securely input performance data and receive AI-driven scoring insights.
- Designed RESTful APIs and integrated a Python-based ML model for player performance evaluation.
- Developed interactive dashboards to visualize performance metrics, rankings, and event data.
- Selected for Smart India Hackathon 2025 (Ministry of Youth Affairs & Sports, Govt. of India).

Zingle – Social Media Platform — React (Vite), Node.js, Express, MongoDB, Redux, Tailwind CSS

2026

- Built a full-stack social media app with posts, stories, messaging, and user connections.
- Developed RESTful APIs and authentication (Clerk) for secure user and data management.
- Integrated media handling (Cloudinary/ImageKit) and designed responsive UI with Redux state management.

Wanderlust – Airbnb-like Rental SaaS Platform — MERN, MVC, MongoDB Atlas

2026

- Built an Airbnb-style rental SaaS platform using MERN architecture.
- Implemented MVC structure, schema validation, and secure session-based authentication.
- Integrated image uploads and deployed on MongoDB Atlas.

TECHNICAL SKILLS

Agile/Scrum (concepts), Team Coordination, Technical Documentation, REST APIs, Full-Stack Development, Git, GitHub, Jira (concepts), Azure (fundamentals), AWS (fundamentals)

EDUCATION

Bachelor of Technology in Computer Science

KIET Group of Institutions, AKTU · 2023 – 2027 · CGPA: 7.1/10

Intermediate (Class XII)

EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple hackathons and won accolades.
- Member of Newton School of Coding Club (NSCC); involved in programming and technical events.
- Experience in hosting events, leading teams, and coordinating activities.
